

HERE'S the POINT!

By SPENCE HELD

When Mounsey C. Pfefferkorn retired the other day after 50 years with the First National Bank, it reminded me of a telephone conversation I had with him once.

I had just had a lot of teeth jerked and my articulation was far below par.

Well, that was no handicap in pounding a typewriter and I was getting along O. K. until it became necessary to phone Pfefferkorn.

I tried to pronounce his name—but what came out sounded something like "Pfftttttferkorn." (This anecdote is better when it's told orally but then I have to serve towels.)

The new Alcoholic Rehabilitation Clinic at 765 India St. was to be dedicated today, with an open house following the ceremony. . . . I trust they served nothing alcoholic.

Seriously, alcoholism is a big problem in S. D. and the rest of the U. S., and this clinic undoubtedly is a step in the right direction.

Applicants will be seen on an appointment basis only—it's for patients "who recognize that they have a drinking problem and want to do something about it."

See where a chimpanzee in Baltimore has sold several paintings. . . . This chimp apparently is making monkeys of the abstract artists whose daubs don't mean anything to 99 percent of the population.

Fella named Myers was in town Monday to contact alumni of what a S. D. newspaper called "Millican" University in Decatur, Ill.

I suspect the journalist who wrote the item probably attended an educational factory of 15,000 students or more. If he had attended a college the size of "Millican" he might have learned to look up a name if he couldn't spell it.

Moral: Attend Cal Western and learn something.

Seventy California-born baseball players are listed on the rosters of the major league teams this year. Pennsylvania is second with 55. Then come New York with 52, Illinois 38, Missouri 35, Ohio 31, Michigan 29, Texas 24, etc.

Well, you say, California is second or third in population so it ought to have a large representation.

Yeah, but those 70 players were BORN in California, before the big population influx started during WWII.

I suspect that a survey of pro football teams would show a similar situation, with such states as California, Ohio, Pennsylvania and Texas at the top and New York (the most populous state) far down the list.

What would New York City do for athletes if it couldn't buy 'em out in the sticks?

Award Presented To Kraft's Drugs

Kraft's Drugs, Inc. is one of the nation's first Rexall stores to receive the new Mortar and Pestle Trophy, presented by the Rexall Drug Company as an annual award to outstanding member-druggists who meet exceptionally high standards of professional ideals, ethical practice and community service.

The historical mortar and pestle, still an important implement in the druggist's profession, is an ancient symbol of pharmacy. Its use for pulverizing medicinal herbs is recorded in the histories of ancient Egyptians, Hebrews of Biblical times and the Roman era.

The award is an authentic replica of a 16th century bronze mortar and pestle cast at Deventer, The Netherlands, in 1590, mounted on a black walnut pedestal with an inscribed plaque. It is on display at the prescription department.

Buildup Continues For Yellow Derby

With the kickoff of the 1957 edition of the \$25,000 San Diego Yellowtail Derby set for March 30, prospective contestants in the Junior Chamber of Commerce sponsored fishing classic girded for more red hot action as another big buildup of yellowtail schools appeared in progress at the Coronado Islands.

Anglers had racked up a total of 11,221 yellowtails up to the start of the fishing day last Sunday—four days in advance of the date on which the first yellow was taken at the Coronados last year.

After hitting above the 1000 mark on yellowtails five days in a

Council Approves Site Lease For Sea Water Plant

Installation of an experimental sea water conversion plant in Ocean Beach was a step nearer this week.

The City Council approved a lease between the city and the federal government for a 5.7-acre site south of the flood control channel, in Mission Bay Park.

The plant will be a solar still, utilizing the sun's rays as a source of power to convert sea water to fresh water.

City officials reported the government has agreed to landscape the area around the plant. The lease will be for one year with nine one-year options for renewal. The city's rental fee will be \$1 a year.

O. B. Kite Festival Enjoyed By Kids

Led by the smartly-stepping Lomanettes, about 200 kids carried kites down Newport Ave. Friday afternoon and then flew them from the beach.

Wind conditions were good for the annual Kite Festival, sponsored by O.B. Kiwanis Club and the City Recreation Dept.

However, tons of widely-spread kelp littered the beach near the surf and the odor was not that of new-mown hay.

There were blue, white, red and yellow kites, decorated by their owners at the O. B. Community Center. Most were of conventional construction but box, star and airplane kites also were airborne.

Many strings got crossed and some kites crashed but nobody apparently minded too much. The kids whooped and hollered and enjoyed the excitement of the massed flight.

Parents aided many of the younger children with their kites.

The Fairest of the Fair and Miss Con-Tour will reign over the 18th annual Southern California Exposition & County Fair at Del Mar (June 28 through July 7) and is hostess for a year of the San Diego County Convention & Tourist Bureau.

Jose Iturbi To Conduct Symphony Orchestra In Concert Monday Night

Jose Iturbi, who will conduct the San Diego Symphony Orchestra in its one midwinter concert of the season next Monday, March 25, in Russ Auditorium, and his sister Amparo, will appear as soloist, probably representing wider versatility of interests and talents than any other two personalities in the musical world today.

Jose is a many sided genius who has achieved phenomenal success as both pianist and conductor, but is also harpsichordist, composer, and film star. He has piloted his own plane all over the world to fulfill his concert engagements. In California he is an Art collector of note, and in his native Spain he is a successful citrus rancher.

Amparo, hailed as a brilliant pianist on every continent, began her musical career while a child, as an opera singer.

From piano to podium for Iturbi was called by critics "The sensational leap." Jose insists it was nothing more than an intelligent transition. He has conducted all of the leading orchestras of the world, including the New York Philharmonic, the Philadelphia Orchestra, the London Philharmonic, the La Scala Orchestra of Milan, National Orchestra of Madrid, and many others.

He maintains that he reaches his highest peak of artistry when he raises his baton, and his gifted sister Amparo is at the piano as soloist.

Seats are available at the Palmer Box Office, Theatrical Music Co., 640 Broadway, and at the Russ Auditorium Box Office Monday evening.

Spring Cues Closet Cleanup

BY EDNA MILES

AS most cleaning is done these days, there's no longer a set housecleaning spree known as spring cleaning. But somehow, spring does seem the ideal time of year to turn out the closets.

Perhaps it's because so much has accumulated in them during the winter months. First step is to get rid of the useless things that always collect in closets. The next is to remove everything so that shelves, walls and floors can be scrubbed.

An efficient cleaner for walls and woodwork can be made by adding a cup of ammonia, one-half cup vinegar and one-fourth cup baking soda to one gallon of water. If you like, use a little household bleach to dispel musty odors.

When you put away winter clothes, always label the boxes and clothes bags so they can be identified at a glance. And in moth-proofing winter woollens, check the directions carefully before you start.

When everything is shipshape again, keep a bottled wick deodorant on the closet shelf to maintain the fresh, clean smell.

Cleaning materials handy, this housekeeper readies her closets for spring.

Kurume Azaleas Are Now In Bloom

Kurume Azaleas, now in bloom, are among the finest flowering shrubs for California gardens. Because of their compact, low, spreading manner of growth, they can be planted in a variety of ways making them excellent for almost any type of garden.

The Kurume Azalea is evergreen and blooms from February to May with flowers often so profuse that they hide the plant itself. Hardy to 20 degrees, Kurumes can be grown successfully in most areas of the state. Plant these Azaleas as foreground of border shrubs, suggest the California Association of Nurserymen.

Handsome in tubs and raised beds, Kurumes can also be attractively planted in masses under trees or in garden beds.

The Azalea, a member of the Rhododendron family, has only a few cultural requirements. By meeting them, gardeners can assure themselves of success. Plant Azaleas in well drained, light acid soil. A mixture of leaf mold, peat and clean sand is good. Do not plant Azaleas in all day shade; they need protection during the heat of the day—12 to 3 p.m. Keep the soil around the plants moist, but not soggy.

Dig the planting hole two feet square and eight to 12 inches deep and fill in around the plant with peat moss to one inch above the soil level. If you garden in clay or adobe soils, plant your Azaleas in raised beds of the recommended planting mixture because clay and adobe do not drain well.

Fertilize Azaleas on April 1, May 1, July 15 and August 15 with an acid reaction fertilizer, but allow your plants to become well established (2-3 months) before feeding.

Kurume Azaleas are available in many name varieties and colors. Well known varieties include Hexe, brilliant crimson, large semi-double flowers; Niobe, pure white; Coral Bells, shades of pink, bell shaped flowers. Kurumes bloom in purple, red, pale pink, orange, white edged in orange, orchid, ruby red and blue pink.

Dana Jr. High Students Participate In Music, Plays & Poster Contests

Participating in the instrumental music festival, in the Vocal Music Festival, in poster contests, and in school plays has brought recognition to more than 200 students at Dana Junior High this month.

Under the guidance of Mrs. Betty Quayle and Miss Ann Couthie, art students created posters for the annual fire prevention poster contest to compete with other junior high entrants. Deana Lorentzen won the grand prize, a small oil painting. Awards of merit went to La-Alla Duncan, David Schulz, Russ Krapf, Judy Atwood and Donald Sweek.

Dana Junior High gained possession of a large oil painting given each year to the winning school. The annual program is sponsored by the San Diego County Citizens Forestry Study Group, the California Division of Forestry and the Southern California Conservation Association.

The drama classes, directed by Mrs. Bette Hawkins, have presented three recent school assemblies. "Strong and Silent," a western, was performed by Carolyn Lake, Dennis Bentley, Bob Beneventi, Gerri Hickerson, Renee Bergenson and Bailey Patengill. "Life of the Party," a modern teen-age play, gave the audience many a laugh with actors Artie Robertson, Kathy Ramsey, Judy Offill, Bonnie McKown and Danny Kite. "Private Eye" included Lee Price, Richy Ferber, Ann Foxworthy, Bob Murrell, Joan Orent, and Kathy Neill. "Modern Cinderella" included the actors Tina Demargos, Irene Vlachos, Sue Morgan, Vicky Glesner and Penny Dana. At the Vocal Festival held at Pacific Beach Junior High March 6, forty members of the boys' glee club and 85 members of the girls glee club from Dana participated with choruses from Montgomery Junior High, Pacific Beach, and Marston Junior Highs. Bible Comment:

Words of Christ Gave His Disciples Their Duties' Scope

WITH the reappearance of Christ after His resurrection, the disciples knew that His message of salvation was not directed toward a limited number of people at a particular crisis in their history. For the first time there came to them the vision of a kingdom which would encompass the earth and all the men on it.

This must have been forming very clearly in their minds, but these words of Christ brought a sudden clarity to the situation: "Go ye therefore, and make disciples of all nations, baptizing them in the name of the Father and of the son and of the Holy Ghost; teaching them to observe all things whatsoever I commanded you; and lo, I am with you always, even unto the end of the world."

We have been familiar for generations with Christianity as a world religion, and we have seen the missionary enterprise of the church so widespread and so effective in the modern world. It is difficult to place ourselves in the position of those who heard this message from Christ.

What a vast world of vision, and enterprise these words opened up—a limitless field for those who believed that they had a gospel of good news to proclaim. Here was a great task of teaching in which men could learn the principles of true character and sound relationships in daily living.

It was the greatest task conceivable that Christ was committing to these 11 disciples. They had been dependent upon His physical presence before. Now they knew that He was leaving them to impress upon men the message of a spiritual kingdom, a message they now understood.

The conversion of the world must be the greatest need and the supreme concern of all who think man and his world are worth saving. What hope for the world is there save in the Gospel?

WHERE DO YOU LIVE?

Tips on Touring

By Carol Lane
Women's Travel Authority
Spring Vacation

Spring is here, and if you feel like
restin' out—why not? Take a spring
vacation. You've earned it. You'll
enjoy it.
The weather is good for driving.
The air is invigorating, and you'll
find the driving easy.
The highways are less crowded.

You'll always find rooms at hotels
and motels along the way.
It's "off-season" in many resorts,
so the rates will be lower, and you
won't need a lot of fancy clothes.
The children get a spring vaca-
tion, so you can take them with you.
If they're high school age, you can
visit college or university campuses
— get the youngsters to start think-
ing about where they'd like to go.
College students will be on their
Easter vacation, so you'll be able to
look around freely.
And finally, take a spring vaca-
tion just to enjoy the magnificent
scenery. Parts of the United States
(like the Shenandoah Valley, mid-
western farmlands and the wild
flowers and blooming orchards on
the West Coast) are at their most
beautiful this time of the year.

Tips on Touring

By Carol Lane
Women's Travel Authority
Woman Of The Year

Sarah Frances McDonald, a hand-
some woman lawyer from Georgia,
has been named Atlanta Woman of
the Year in the Professions.
I can understand why. I met her
last October in Chicago, where she
represented the Decatur, Ga., Busi-
ness and Professional Women's Club

Sarah Frances McDonald

in accepting the first place in the
nation-wide Carol Lane Awards for
Traffic Safety. She's as able as she
is attractive. Miss McDonald's latest
honor is added recognition for lead-
ing the Decatur BPW in a remark-
able program for civic improvement.
The committee that chose her as
woman of the year said she has
made "an outstanding record in both
her professional life and in civic
life of the community". They noted
especially her work in driver educa-
tion.

Her club's driver education pro-
gram in the DeKalb County schools
clinched first place in the 1956 Carol
Lane Awards. These awards are ad-
ministered by the National Safety
Council through a grant of Shell
Oil Company. They honor women's
contributions to the field of traffic
safety.

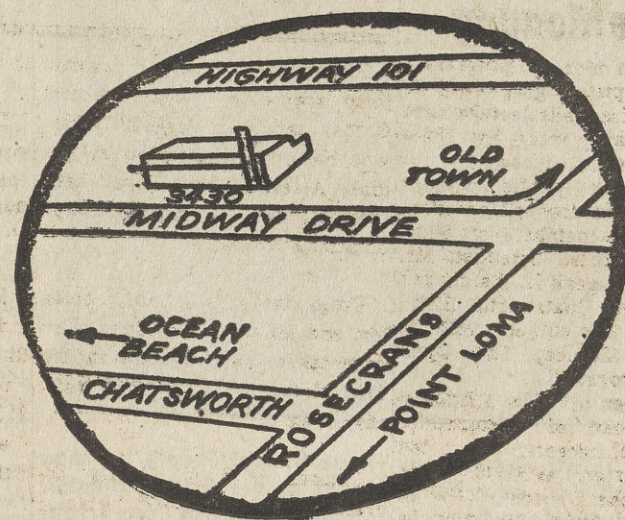

The driver education program
inaugurated by Miss McDonald's
group is now well on its way to be-
coming a statewide affair. It has al-
ready been endorsed by the governor
of Georgia.

Miss McDonald is one of the three
women directors of the newly
formed Margaret Mitchell Safety
Council. She was recently elected
president of the Georgia Associa-
tion of Women Lawyers.

I'm happy to congratulate her on
being named "Woman of the Year".
But remember — we saw her first!

'Dr. Rex Morgan' To Speak In S. D.

Dr. Nicholas P. Dallis, creator of the Dr. Rex Morgan comic strip, will be principal speaker at the annual meeting of the San Diego County Tuberculosis and Health Association, it was announced this week by Dr. Homer D. Peabody Jr., president of the association. The meeting will be held at the Lafayette Hotel, at 6:30 p.m., Tuesday, April 2.

Dr. Dallis, Toledo, Ohio, psychiatrist, will base his talk on the evolution of a comic strip story concerning a tuberculosis patient.

The dinner meeting will climax one of the most successful years of the Tuberculosis Association, a year which saw an all-time record Christmas Seal Sale, already in excess of \$147,000. Final returns in the fund-raising campaign will not be known until the books are closed on March 31.

The public is invited to attend the meeting, and reservations may be made by writing the Tuberculosis Association, 3861 Front St., San Diego 3, or by telephoning CYpress 6-2179.

Keep a bottle of drinking water in the refrigerator. Running the tap until water gets cool will waste a gallon every time.

'The Tender Trap' Set At Old Globe

One of the top stage successes of 1955 in New York, Chicago and other cities, "The Tender Trap" will open Tuesday, March 26, at the Old Globe Theatre in Balboa Park. The San Diego Community Theatre production is directed by Mrs. Bettie Holway and is staged by Peggy Kellner.

"The Tender Trap" is a hilarious comedy about a modern bachelor so pursued by attractive and clever business girls aiming to make him a husband, that he gets confused in juggling his dates and various promises and becomes engaged to not less than two girls in the course of one evening.

The play has been described as a combination of delightful farce, sophisticated drama and a straight study of human relations. It will continue nightly at the Globe Theatre, except Mondays, at 8:30 through April 21.

Scout Troop 28 Meeting Friday

Parents are asked to attend an important meeting of Boy Scout Troop 28 Friday, March 22 at 7:30 p.m. in the O.B. Kiwanis Youth Center.

WHAT'S DOING

J. L. Webb, your Telephone Manager in San Diego

Candy-cane wire—not good to eat but very good for getting phone service to folks living in rural areas. It's a kind of cable—six pairs of brightly colored wires wrapped around a supporting core. Candy-cane wire serves as many people as six separate lines would and is much easier to put up and maintain. The colors make it easier to identify lines. Candy-cane wire is one of the many developments that helps us meet the growing telephone needs of the Pacific West.

R-O-H: That's what telephone line testers call it when they run into the situation like the one at the left. It means "receiver off the hook." A receiver hasn't been replaced quite right or it's accidentally propped up by some object. Whatever the cause, the plungers don't go all the way down and your line is as "busy" as if you were talking. Watch out for R-O-H.

"HEMO" SPECTACULAR PREMIERED ON TV

Now Available To Public

Last night witnessed the premiere showing of "Hemo the Magnificent" on television. Like "Our Mr. Sun," the first film in the Bell System Series, "Hemo the Magnificent" is a story within a story telling the story of blood and its circulation. Produced and directed by Frank Capra, the film presented on the Magic Screen of Fiction Writer (Richard Carlson) and the Science Screen of Dr. Research (Dr. Frank Baxter) how the circulation system works, how the barostat controls blood pressure, how the composition of blood may have evolved from sea water, how "gate keepers" check blood flow, and how blood feeds the body.

A warm reception was given the film at a preview showing, held on the fourteenth of March for local educators and other interested groups.

"Hemo the Magnificent" in color is available to schools and to other public groups for showings as is "Our Mr. Sun." This film or any film in the Pacific Telephone and Telegraph Company Film Library can be borrowed in 16 mm prints for group showings by contacting Mr. Bill Wells or Mrs. Peggy Queen at Belmont 2 0053, 1240 - 7th.

*New Revolving Agitator eliminates old center-post with its jerk-jerk motion. Clothes are placed inside the agitator, are lifted, turned, plunged 50 times a minute. It's the New Way to Wash—and years ahead!
*Soap 'N' Water Saver measures detergent and water to the last drop, saves half the detergent, up to 10 gallons of water each load.
*Weigh-to-Save Door is an actual scale; shows where to set the Soap 'N' Water Saver.
*Direct Air Flow Dryer is fastest, thriftiest; blows fresh, warmed air directly on clothes—not through machinery.
*Automatic Dry Dial works better than any timer; shuts off automatically when load is dry. Heat Selector Dial gives proper heat for every fabric.
*Slant-Front Construction saves stooping, kneeling; makes loading and unloading easy.
